Peruna is known from the Atlantic to the Pacific. Letters of congratulation and commendation testifying to the merits of Peruna as a catarrh remedy are pouring in from every State in the Union. Dr. Hartman is receiving hundreds of such letters daily. All classes write these letters, from the highest to the lowest.

The outdoor laborer, the indoor artisan, the clerk, the editor, the statesman, the preacher—all agree that Peruna is the catarrh remedy of the age. The stage and rostrum, recognizing catarrh as their greatest enemy, are especially enthusiastic in their praise and testimony.

Any man who wishes perfect health must be entirely free from catarrh. Catarrh is well-nigh universal. Peruna is the best safeguard known.

# THE OLD DOMINION.

Latest News Gleaned From All Over the State.

George Totten, colored, who on November 9, at Max Meadows, in Wythe County, committed murder, and who was sentenced shortly thereafter to be hanged for the crime, has had his sentence commuted by Governor Montague to life imprisonment in the State penitentiary. The sentence was commuted by the Governor because of extenuating circumstances. The trial judge and the Commonwealth's attorney both stated that, while the sentence was in accordance with the evidence, they thought the death penalty too severe. The petition to the Governor was signed by a majority of the jurors who tried the negro and by many responsible citizens. The Governor made the negro a present of his life as a Thanksgiving gift.

Henry Schmel and others, of Hampton, applied to the State Board of Fisheries for the assignment of certain grounds in the bay off Ocean View and near Lynnhaven as public crabbing grounds. Mr. Schmel appeared before the board for the purpose of urging that an official crabbers be made in order to protect crabbers generally against the invasion of outsiders, who might move to effect a corner in crabs on the pretext of securing the grounds for oyster purposes. The board decided that, in view of the early convening of the Legislature, it would not assign the grounds for a special purpose. The members of the board went to Richmond for the purpose of finishing their report in time for the meeting of the Legislature.

J. G. Carlisle, of Berryville, a line-man for the Southern Bell Telephone Company, who has been at work on the new plant in Lynchburg, lost his life in a distressing accident. Carlisle was at work on an aerial cable. While pushing himself on a wire cable from one pole to another 30 feet above the street he touched a high current electric power wire with one of his feet. Instantly he was precipitated head first to the ground. In the descent he turned and struck the ground on his left hip, breaking it, and receiving internal injuries, as well as being horribly burned on his feet and both hands. He was taken to the City Hospital, where two physicians did all that was possible for him, but he expired about 1 o'clock. The young man was about 20 years old and he had been with the Bell Company for two years.

The robbery of the express office at Covington, is an exceedingly interesting case. Policeman Mike Guffin was arrested last week and about \$500, said to be part of the missing money, was found under a carpet in his house. About \$3,000 worth of diamonds, about \$10,000 worth of jewelry, and a New York dealer to a wealthy patron at the Virginia Hot Springs for her inspection, were also missing. These were not found, and the Sheriff of Allegheny County went to Hot Springs to investigate. At this time there were numerous reports of losses, not only of jewelry but of the wealthy guests at the Hot Springs, but also of ladies' fine gowns and other valuables. The particulars in the robbery were for some reasons suppressed at the time, but Friday the Chesapeake and Ohio Agent sent out another warrant against Policeman McGuffin, who was familiar with the express office and who is said to have visited the place by day and by night. Another search of his premises was made, and it is declared many fine clothes, including several Parisian gowns belonging to Mrs. Burgwyn, of Pittsburgh, who was on her way home from the Hot Springs, were found. The goods found are valued at \$500. Covington is the gateway to the Hot Springs, and the express office at Covington transmits many valuable packages to that fashionable resort. The robberies have been going on for some months. The policeman is charged with taking advantage of his position to rob the office without suspicion turning toward him.

The State Board of Fisheries met in Richmond and is busily engaged in the office of Henry M. Tyler, the Richmond member, in making up its annual report. A member of the board humorously referred to it as "the final report of the board." Dr. J. W. Bowdoin is presiding, with the following members present: George Keizer, Henry M. Tyler and Secretary S. F. Miller. The figures for the present year will show that the oyster industry has paid the State about \$75,000, and the expenses are about the same as last year, leaving a net income of about \$50,000 for the operations of the year. The report will not be made public until received by the Governor.

W. F. Scott, a conductor on the Newport News and Old Point railway line, was fatally injured beneath the wheels of a trailer while his last car was entering the Government Reservation at Old Point. Badly mangled, the injured man was removed to the Fort Hospital, where he died in a short time. Scott had stepped into his car to throw a signal light, and in so doing he fell between the car and a trailer. The motorman, knowing nothing of the accident, did not stop the car until the trucks of the trailer had passed over the body of the unfortunate conductor. The dead conductor is survived by a widow and two small children. He was 28 years old and came from Smithfield about a year ago. A coroner's inquest exonerated the railway company from blame.

Several deaths in Virginia recently from mad-dog bites and the biting of persons last week in Newport News by a mad dog has turned public attention to this danger. Virginia is said to be the third State in the Union in the number of cases of rabies. New York is first and Pennsylvania second. Norfolk and Newport News furnish the largest number of cases in Virginia. The latter city has just passed an ordinance that all dogs shall be muzzled.

George J. Worthington, of South Norfolk, was brought to the Norfolk County Jail in Portsmouth, on the charge of being responsible for the death of his wife, Mamie B. Worthington, who was burned to death. The husband came home late and when she started to get supper for him he snatched the lamp from her hand, it is alleged, and allowed it to fall to the floor and set her clothes on fire. He was not in a condition to assist her and before the neighbors arrived she was fatally burned. He had nothing to say in defense of his conduct.

Mrs. J. K. Rumberg, wife of the Methodist minister at Simpson's, Floyd County, is dead. Her husband was conducting a revival at their home church and at night Mrs. Arlington Rumberg Gray, daughter of the pastor and his wife, went to the altar and made a profession of faith. The mother was so overcome that she fell over in a swoon. Mrs. Rumberg was carried out of the church and died in a few minutes. She was 30 years old.

R. G. Dun & Co.'s Weekly Review of Trade says:—

Business conditions certainly warranted a day of gratitude this year more than ever before, but in many industries it was difficult to take time for a holiday without falling still further behind orders and increasing the complaints of importunate purchasers.

An idea of the volume of trade in November is shown by a daily average of bank exchanges that exceeded last year's figures by 4.0 per cent., which in turn surpassed all previous monthly records.

Yet unseasonably mild weather in November has postponed retail business in winter goods. Christmas trade opens with a volume that promises to eclipse all earlier records, and the feeling of confidence in the future is strengthened by the encouraging statements that the strike of structural iron workers may not become general.

Bradstreet's says: Wheat, including flour, exports for the week ending November 30, are 3,076,600 bushels, against 3,353,068 last week, 2,101,773 this week last year, 4,201,504 in 1903 and 5,704,440 in 1902. Corn exports for the week are 1,643,824 bushels, against 1,010,522 last week, 3,648,841 a year ago, 1,098,951 in 1903 and 1,151,563 in 1902.

Failures this week in the United States are 203, against 228 last week, 240 the preceding week and 245 the corresponding week last year. Failures in Canada number 32, against 34 last week, 42 the preceding week and 29 last year.

News of a singular fatality reminiscent of the sanguinary reconquest of the Sudan is to hand from Khartoum. A party of Sudanese, natives of Omdurman, after bathing in the Nile were resting on the desert sands to dry. A few yards away they observed a black object half emerging from the sand. Instantly all of them ran up to unearth the mystery. It was then seen to be a bombshell. Not content with this discovery, one of the Arabs proceeded to break open the projectile, which thereupon exploded with terrific force, causing instant death to two of the Arabs, who are described as having been shattered into fragments. Another was gravely wounded. The supposition regarding the shell is that it was one fired from Kitchener's guns at the battle of Omdurman, lying quiescent from that day to the moment of its tragic explosion only the other day.

Frequent backache and distressing pains, accompanied by offensive discharges, generally by irregular and scanty menstruation indicate a displacement or nerve degeneration of the womb and surrounding organs. The question that troubles women is how can a woman who has some female trouble bear healthy children? Mrs. Anna Potts, of 510 Park Avenue, Hot Springs, Ark., writes: "My dear Mrs. Pinkham: I was delicate in health; both my husband and I were very anxious for a child to bless our home, but I had two miscarriages, and could not carry a child to maturity. A neighbor who had been cured by Lydia E. Pinkham's Vegetable Compound advised me to try it. I did so and soon felt that I was growing stronger, my headaches and backaches less, I had no more tearing-down periods, and felt like a new woman. Within a year I became the mother of a strong, healthy child, the joy of our home. Lydia E. Pinkham's Vegetable Compound is certainly a splendid remedy, and I wish every woman who wants to become a mother would try it."

Actual sterility in woman is very rare. If any woman thinks she is sterile, let her try Lydia E. Pinkham's Vegetable Compound and write to Mrs. Pinkham, Lynn, Mass. Her advice is free to expectant or would-be mothers.
